OBEDIENCE REPORT— Maree (Chief Instructor)

Hi everyone. Well it's the end of the year and very close to Christmas. I for one am looking forward to a well earned break. It has been a busy year for all of us. Great team effort!!!!

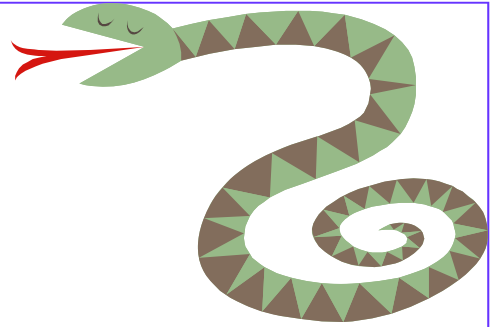

I would like to thank all Instructors both new and experienced for supporting the Wangaratta Obedience. I would also like to thank everyone who has contributed to the upkeep and maintenance

of our club facilities over the year. A lot of hard work has gone on behind the scenes and there are planned activities for the forth coming year as well. This will be ongoing so as to keep the club up to standard. Help from members over the year have been fantastic. Lastly to those who have contributed to helping to run the show and trial.

I hope you all have a very happy Christmas and safe New Year and look forward to seeing you on the 1st Wednesday of February 2010. Don't forget to keep training over the holidays

SNAKES & HEAT

WATCH OUT!!!

Now the hot weather has arrived it is inevitable that those dreaded moving sticks are about and a danger to our pets. Hopefully most areas you may walk are pretty safe, but be alert at all times, by thinking about when and where you walk with your dog in the summer months.

It can be a pleasant walk if you keep in mind a few simple strategies. To only walk your dog in the cool of the mornings before the snakes are out and about. Be careful when walking around near the river. Have the dogs on lead in these places, that way you have control if a snake should appear. Clear rubbish from around your house, snakes love to hide in places where they can get warm and be hidden, until a curious dog comes sniffing around and that's when trouble begins.

If your dog does get bitten by a snake, try to keep calm and the dog as well, and get to a vet as soon as possible. The vet will want to know what kind of snake it was, so if you saw the bugger, describe it to your vet so as the right antivenin can be administered. It is a serious event and your dog may or may not survive, so it pays to be vigilant and take the time to walk in safer places.

The other danger in the summer is "THE HEAT". I cannot believe how many people still take their dogs to the shops and leave them in the car after all the publicity surrounding the deaths in cars that occur from over-heating even, for a short time on a mildly warm day. Leave your dog at home with shade and plenty of water.

Some tips for keeping cool are you could:

- ⇒ put ice cubes in the dogs water, this helps to keep your dog cool & its fun for the dog.
- ⇒ Freeze pieces of meat in water ice block and the dog will have fun licking the ice to get to the meat. Freezing balls of minced meat is another way of amusing your dog while it stays cool.
- ⇒ Cool coats are a good idea for people trialing or showing in the heat
- ⇒ If you have to take your dog somewhere invest in a grill for the back of the car or a crate so you don't have to leave your dog in the car without maximum airflow.
- ⇒ If it's extremely hot outside allow your dog to come in for the benefit of the air-conditioner. If your hot so will your dog be hot.
- ⇒ Watch for your dog overheating, Please don't walk your dog on the hot pavement in the middle of the heat of the day. How would you like to walk in bare feet on burning pavement. If you see signs your dog is panting very vigorously and looks like their going to collapse, they probably are. Wet a towel and hang the cool wet towel over their back, or get the hose and wet your dog all over, starting at the feet until they are cooler, then let them rest in a shady cool spot. **Remember if you feel the heat, So do they.....Be Safe**

VALE

CLARWEN BIGGS

1943-2009

Passed away on Friday 13th November 2009 after a long and painful illness at the Benalla Hospital.

Clarwen was a member of the Wangaratta Kennel & Obedience Dog Club for many years.

With her Working Kelpie (Sadie Biggs) who achieved Tracking champion, CDX level in Obedience and ADX & JDX in Agility and Jumping. Clarwen and Sadie also entered herding trials gaining HIT, (herding instinct test) HDs. (Herding dog with sheep). In later years Sadie became an assistance dog to Clarwen after a hip operation, picking up things that couldn't be reached, to even climbing into the clothes dryer to retrieve the clothes after they had been dried, so they could be folded. They were an inseparable pair, wherever Clarwen was Sadie was beside her.

Clarwen attended at all club events. She was a shy and unobtrusive person working away in a quiet manner for the good of the club, maintaining the equipment manning the office with Ruby, and helping out at trials. Always there to lend a helping hand

She will be sadly missed by the Wangaratta club members and her friends and trialing buddies.

.TCH Sadie Biggs CDX ADX JDX HIT HDs ET

Sadie is now living her days out with a friend.

RAFFLE FOR THE END OF YEAR DINNER - "DONATIONS!!!!"

Donations for the **RAFFLE** for the end of year dinner would be appreciated. All donations can be left at the office where a box is provided.

If anyone is able to sell some raffle tickets to their family and friends please take a book, but be sure to return them on the night of the dinner or they won't count.

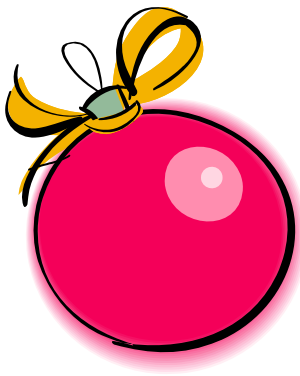

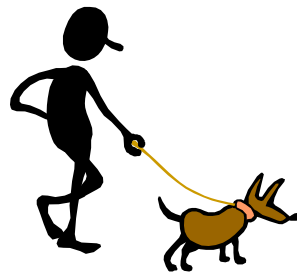

This is our last fundraiser so be generous and dig deep. All monies go to the ongoing up keep and

maintenance of our club. We strive to provide members with facilities that are up to standard for safety and food standards.

Because we are a not for profit organization and rely on volunteers to provide a service to the Wangaratta and surrounding region, we are always looking for ways to fundraise, & applying for grants to upgrade our club facilities, so anyone interested in helping with the work parties, volunteering to help out at our trials and shows, ideas for fundraising that can be

bought up at the meetings and discussed are very welcome.

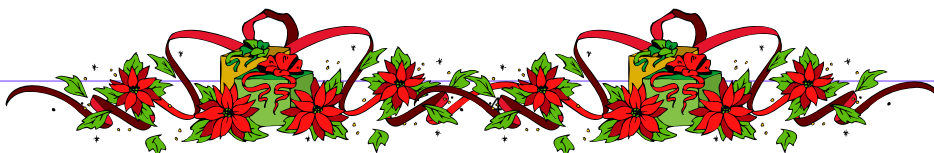

If we all pull together for the good of the club, we will be helping to keep our dogs in our community safe and happy, well trained and behaved and a joy to own.
